This is the retractive effect of fifty years pursuit

of abolitionism. Hayti, Jamaica and the French West Indies, subjected to the erroneous social and economical theories of a school of mistaken humanitarians, have exhibited a continuous industrial decay, while the world, in its progress, was demanding from them an increase of industrial energy. As it is now the fashion to phrase it in commercial circles, consumption has overtaken production, and Europe must have more cotton, sugar, coffee, rice and other articles of almost the first necessity to European life. The argument that is now adduced to sustain this abandonment of errors that have been so long maintained, is forcibly put by the London Times. In substance it is this-While we have been demanding from the tropical communities an increase of their staple of production, we have been striking at the root of that production by depriving them of their

Royal Anecdote. As Joseph II., Emperor of Austria, was driving his one horse cabriolet, dressed in the garb of a private citizen, he was accosted by a soldier, who, mistaking him for a man of the middle class, requested

a seat in the vehicle. "Willingly," replied the Emperor; "jump in, comrade, for I'm in a hurry." The soldier was soon seated alongside of the Em-

peror, and became very loquacious. "Come comrade," said he, slapping the Emperor familiarly on the back, " are you good at guessing?"

" Perhaps I am," said Joseph, "try me." "Well, then, my boy, conjure up your wits, and tell me what I had for breakfast!" " Sour-krout!

" Come, none of that, comrade, try it again." " Perhaps a Westphalia ham," replied the Emperor, willing to humor his companion. "Bett-r than that," exclaimed the soldier.

Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of

TURPENTINE-By reference to our table below it will be seen that prices remain the same as quoted on this day week, with the exception of old hard, which we quote at half the price of yellow dip. There has existed a fair enquiry throughout the week from distillers, and the market closes firmer ;-there is some demand from shippers, but the light receipts has tended to keep them out of market The ar-

rivals have been principally confined to small parcels, and the sales for the week foot up only 1,912 bbls., as follows:

This morning the market is quiet; buyers offering 38 cents, and sellers generally holding at 39 cents and upwards Sales for the week as follows:

Thursday 480 bbls at 38 cents per gallon.

Only a few scattering lots on market, and a fair enquiry from buyers. Sale on Monday of 111 bales at 14 cents per lb. for holders demand an advance. Flour was buoyant, and hollow to good middling; and Wednesday 80 do. at 121 a 14 ders were asking an advance of 6d. a 1s. Wheat was buoycents for ordinary to strict middling. EMPTY BARRELS .- For Spirits Turpentine barrels we note a fair enquiry existing, with only a moderate stock on mar-We quote sales of second hand ones during the week at

\$1 90 a \$2 each for good quality. FLOUR—The market since Wednesday last has ruled define, and \$6 50 per bbl for family; no operations worthy of note since then. The receipts for a week or two past have been moderate, and there is a far supply now on market, 71; middling 715-16; Mobile fair 84; middling 715-16; Mob holders generally, however, do not appear disposed to accept above figures, and are firm in holding at higher rates. In the present state of the market we are unable to give a correct figure, and therefore quote nominally at \$6 a \$6 50 for fine, \$6 75 a \$7 for superfine, and \$7 25 a \$7 50 for family. The market is heavily supplied with Northern, and rules exceedingly dull at a decline. Last sale was at \$6 for fine.

Breadstulls—I he weather has been tavorable for the crops. Richardson & Spence quote: Flour is steady and quiet.—Wheat quiet and dull, and quotations of Tuesday barely maintained. Corn has declining tendency. Prices are easier but unchanged. Red wheat 8s 9d a 9s 6d; white 9s 6d a 10s. Western canal flour 30s 6d a 32s; Ohio 32s 6d a 33s 6d; ceedingly dull at a decline. Last sale was at \$6 for fine.

GRAIN—In Corn we note a shade decline since last review. Philadelphia and Baltimore 31s a 32s 6d. Corn—Yellow 33s The market during the earlier part of the week exhibited 9d to 39s a 41s. considerable duliness, but closes with rather a firmer feeling among holders. On Saturday last a cargo was received from Hyde county, and sold at 88 cents per bushel. About 9,100 bushels since received, of which 5,100 were taken at 92 cents. Lard is firm at 62s 6d a 63s. Tallow is firmer and 1,200 at 90 cents per bushel; the balance is unsold .-WILMINGTON, N. C.

Dealers have a fair supply in store, and do not seem much disposed to operate. We quote at 90 a 92 cents per bushel, Inform the citizens of Wilmington and surrounding country, that he has taken the store on the corner of Market and receipts during the past week, and the stock in dealers hands net sales at 45s. Turpentine closed at 42a43s. Rosin is Second streets, under the Carolina Hotel, where he would be has become somewhat reduced; fully sufficient, however, for steady; common 4s 4da4s 6d, medium 6s 6d a 8s, fine 15a15s Martingales, Harness, Trunks, Whips, Spurs, and all articles usually kept in such an establishment, all of which he will seil low for cash, or on accommodating terms. Call and examine, as he solicits a share of public patronage.

Expairing done at short notice.

The demand. We quote cargo rate to cents per pusher.

Peas—No late receipts of Black Eye, and none on market; would sell quick at a high figure. Cow are also in light supply, and very much wanted. Only one small lot has been received since our last, and sold at \$1 40 per busher. We quote at \$1 30 a \$1 40, as in quantity and quality.

Expairing done at short notice. quote at \$1 30 a \$1 40, as in quantity and quality.

RICE—Clean is in moderate stock, and demand confined entirely to the trade. We quote small sales from store at 5

cents per lb. HAY-We have no material change to make in this article for the week. Dealers have a full supply on hand, and are not disposed to operate further at present figures. No arrivals or sales of Eastern, and quotations in table are merely nominal. A lot of 150 bales Northern received a few days since, and sold at 95 cents per 100 lbs., 90 days.

Line.—There is merely a retail demand existing, and we note a fair stock in dealers' hands. We quote sales in the small way at \$1 35 a \$1 40 per cask, as in quantity.

Molasses.—No Cuba received:—there is little or none in first hands, and retailers have but a small supply in store—sufficient, however, for the demand. We quote from wharf at 54 a 55 cents per gallon.

Potatoes.—Irish have been brought in rather more freely, and the price has gone down. We quote from earts at \$1 50

PROVISIONS —The receipts of N. C. cured Bacon have been meagre for some weeks past, and in consequence the supply on market has become materially reduced—there being only a few small lots now in first hands. We note rather a better feeling in the market, as there is more enquiry for retailing purposes, but the sales have been principally in the small way at 16 cents per lb. for hog round. See table for quotations of hams, sides and shoulders. The market is very well supplied with Western and in the absence of ry well supplied with Western, and in the absence of any except a retail demand it rules exceedingly dull. We quote at 12 a 12½ cents for shoulders, 14 a 14½ cents for sides, and 14 cents perilb. for sugar cured hams.——LARD.—We have nothing new toj note in the market for this article.—No N. C. make on the market, and in demand at 16½ a 17c. per lb., as in quality. Western is in fair enquiry, and only a iew small lots effering;—we quote from store at 15th a 16 cts.

— PORK.—We note merely a retail demand since our last, and the market has ruled quiet; in fair stock. We quote small sales of Mess at \$25 a \$26 per bbl., as in quantity and

SALT-The market remains about the same as reported for several weeks past. No receipts or sales of either quality, and very little demand. See table for prices. SHINGLES—None of consequence arriving, and the market rules decidedly dull. See tables for quotations, as in quality.

TIMESR—Continues to arrive sparingly, but sufficient for the demand from millers; market dull. Small sales at prices ranging within quoted rates. See table. FREIGHTS-Very little produce offering shipment, and plenty of vessels in port. Our figures in table are for last rates paid, and market dull.
